Subject: Microsoft Settlement

I think the facts, as well as the opinions, are in and it is time for the Department of Justice to act firmly against Microsoft. It has long been known that Microsoft has used its position to squelch competition and stifle creativity. Microsoft has used its position to deliver products that were full of flaws and demand premium prices. This, in light of their predatory practices, should not be tolerated.

Please take this opportunity to open up this monopoly to other players and get the economy back on track.
